

Advance Program (as of 9/3/10)

2010 International Symposium on Safe Medicine*

**Previously known as the International Symposium on Pharmaceuticals in the Home and Environment*

**Sunday - Tuesday
October 10 - 12, 2010**

**Holiday Inn by the Bay
Hotel & Convention Center
Portland, Maine**

This conference is designed for medical, health, pharmaceutical, and human service practitioners, educators, policymakers, law enforcement personnel, environmentalists, substance abuse professionals, and others concerned with the human and environmental impact of prescription drugs on individuals and their external environment.

See you in Portland, Maine

The exciting and beautiful coastal city of Portland, Maine offers a superb venue in which to learn, share ideas, and network with both a national and international gathering of authorities and other stakeholders on the major issues and challenges surrounding prescription drug use, misuse, abuse, return, and disposal.

New Conference Format This Year

This year's program will merge the traditional dual track agenda offered in past years on Monday, October 11th and Tuesday morning, October 12th such that all attendees will now have the special opportunity to attend informative and thought provoking sessions on the full range of issues surrounding: 1) the environmental and social impact of unused prescription drugs stored in homes and flushed or otherwise discarded into the

environment; 2) innovative return and disposal policy and program responses and related environmental issues; 3) the multitude of issues surrounding the use, misuse, and abuse of prescription drugs with a special focus on benzodiazepines, a class of medications used to treat anxiety, stress, and insomnia; and 4) pertinent health, safety, and improved medication prescribing practices and policies. Tuesday mid-late morning and afternoon, on October 12th, has concurrent sessions scheduled.

Don't Miss the Pre-Conference Workshops

You will not want to miss attending the special pre-conference workshops offered on Sunday afternoon, October 10th. This year, there are no additional registration fees required to attend these sessions. The workshop on "Effective Strategies in Opioid Prescribing" is being sponsored by the Substance Abuse and Mental Health Services Administration (SAMHSA)/Center for Substance Abuse Treatment (CSAT).

Charter Meeting of the International Association of Drug Waste Prevention, Disposal, and Medicine Safety Organizations

Concurrent with the conference, the Maine Institute for Medicine Safety will hold the charter meeting of the International Association of Drug Waste Prevention, Disposal, and Medicine Safety Organizations. It will be held starting at 5:30 pm on Sunday, October 10th. Questions about the International Association should be addressed to Dr. Stevan Gressitt at gressitt@gmail.com.

Sunday, October 10th

12:00 pm – Welcoming Remarks and Introductions

Lenard W. Kaye, DSW, PhD, Director, UMaine Center on Aging
