
Ann Pistell, Maine Department of Environmental Protection
Cheri Grasso, Local Hazardous Waste Management Program in King County

October 2009
States with Bills in 2009

- Florida (SB 2650)
- Maine (LD 821)
- Minnesota (HB 1217)
- Oregon (SB 598)
- Washington (2SHB 1165, SB 5279)
Washington and Maine

Similarities Between the Bills

In 2009
Producer Responsibility

- Producers provide & pay for program

- No fee to customer at time of sale or collection
What’s Covered

- All medicines
  - Over-the-counter
  - Prescriptions, including controlled substances
  - veterinary

- From households & residential sources
Not Prescriptive

- Producers determine how to collect drugs
- Pharmacy take-back, mail-in, combination, or other idea

Pharmacies not required to be collection sites

Expect many pharmacies to be eager to participate
Administration

- All producers must participate in an approved plan
  - WA - Board of Pharmacy
  - ME – ME DEP & ME DEA & ME DHHS

- Can coordinate with other producers or have their own plan

- **Must** accept all medicines regardless of who produced them
Oversight – State Role

Washington Board of Pharmacy
Maine DEA/DEP/DSHS

- **Review & approve plans**
  - WA – in consultation with DOE
  - ME – DEP in consultation with DEA & DHHS

- **Adopt rules**
  - WA – BOP shall adopt rules
  - ME – ME BEP will adopt rules as necessary

- **Enforcement**
  - WA – BOP
  - ME – ME DEA and ME DEP
Outreach & Evaluation

- Producers provide education and outreach about the program
Final Disposal

- Must be disposed at hazardous waste facility
- Allows for superior technology if approved by WA Department of Ecology or Maine DEP
Reporting

- Annual report must include
  - List of producers that participated
  - Amount of medicines collected
  - Description of collection system
  - The disposal facility used
  - Identification of any problems
  - Description of outreach & education
Washington and Maine

Differences Between the Bills

In 2009
<table>
<thead>
<tr>
<th>Washington</th>
<th>Maine</th>
</tr>
</thead>
<tbody>
<tr>
<td>- State agency may establish fees on producers to recover expenses</td>
<td>- No fee to recover DEP or DHHS administrative expenses. If DEA runs some aspects of program, manufacturers cover the costs.</td>
</tr>
</tbody>
</table>
Pharmacies

Both Maine & Washington

- If producers set up pharmacy take-back program, pharmacies may voluntarily participate as collection sites.

Maine

- Pharmacies must make program information available to customers. If mail-in established, pharmacies must make mailers available.
Program Evaluation

Washington

- Must annually evaluate outreach & program including:
  - % of residents aware of program
  - What extent residents find program convenient

Maine

- Annually evaluates program performance and recovery rates.
  Year 4 can require modifications.
Recovery Requirements

Washington

- No recovery goals or requirements BUT:
  - Board of Pharmacy may establish performance standards
  - Collection must be provided in all counties & in cities of 10,000 or greater population
  - Board of Pharmacy must invite comments on satisfaction with services

Maine

- Recovery goals established through stakeholder process for year 4 and beyond
Data Requirement

Washington
- Producers encouraged to collect data

Maine
- requires random sampling to develop unbiased and statistically significant data including:
  - Brand/generic name
  - Strength
  - Quantity returned
  - Quantity prescribed
  - Zip code if script
Maine Politics

- 9 co-sponsors
- Overwhelming support during testimony by health, law enforcement and environmental groups and some pharmacies.
- Opposition was pharmaceutical co’s.
- Held over to January 2010 session.

This issue isn’t going away ...

AP: Drugs found in drinking water

Hormonal chemicals may be imperiling fish

Pain pills a rising cause of death

Prescription drug overdoses are up 56% since 1997

Drugs in water causing troubling problems to fish, wildlife

OxyContin abuse in region soars

OUTPACING METH | The illicit use of the painkiller, especially among teens, has driven up its street price, which has made pharmacies robbery targets.

OxyContin is a powerful prescription painkiller, simply known as “Oxy.” According to the Drug Enforcement Administration (DEA), prescription-drug abuse

...
Producer responsibility would make a medicine return program possible for the long term.
Next Steps

- Continue participating in PSI’s National Stakeholder Dialogue
- Drug manufacturer support?
- Continue local conversations with stakeholders
- Broaden & deepen support
- Bill passage
